Erica creatively brought all my thoughts together in a colorful brochure with testimonials and payroll forms in the background. She outsourced them to be printed at a price that I thought was very reasonable. They are beautiful!

The card stock they are printed on is a high quality, thick and glossy stock that makes my brochures look even better than I expected. I am very excited about my brochures, I can't wait to hand them out! I am also looking forward to working with Erica on my website.

Erica's work is superior and helps my company stand out from the competition. I would highly recommend Erica to any company that needs a fresh, imaginative look. I would be happy to refer Wild Indigo, and I have.

I am continuously impressed with your work ethic, your quick turnaround time and how much you care about the end result of the work product no matter how large the job is.

I have hired you for various services from magnetic business cards to creating an informational brochure to help me promote my business during the holidays.

I have been very pleased with everything you have presented to me. I will continue to refer friends, family and business associates to you as I know you will provide them with the same quality of service you have given me.

Erica Thompson of Wild Indigo Creative Services has work with me on several design projects: banners, logo design, business card design and a logo redesign.

Working with her company has been easy and enjoyable. I find her method to be timely, organized and effective. In the spa industry, our relationship with our customers starts as soon as they see our name. They need to see and feel our commitment to their relaxation and wellness.

If we miss that opportunity to project our image, we will lose them as a customer.

Erica's extensive background in graphic design helped her to produce marketing pieces that communicate exactly who my company is, what my company stands for and why my audience should work with us.

Whether your business is large or small, I would recommend making her services part of your marketing strategy.

I recently used Wild Indigo's services to develop a brochure, banner, and flyer for a new wellness program I had started at my chiropractic office.

I had all of the text for the brochure written, but had no concept of logo, branding, or design style in mind. I just told Erica what I was doing, sent her to my website so she could get a feel for my colors and style, and she took over from there.

I had no idea what to expect, and she really hit a home run.

Everything from the photos, to the layout, to the use of color was amazing. I have gotten many compliments on how professional everything looks. I am very proud to hand out the brochures because I know they are both professional and a true representation of the energy/"feel" of the wellness program.

Erica was also very quick and efficient, worked with my deadlines, was patient when I wanted to make changes, and kept in constant communication with me. You will not be disappointed in Wild Indigo!

We at Locke Crane Services have been very pleased with the service and results we have received from Erica at Wild Indigo.

We found Erica a delight to work with and always prompt to answer any question or to make any changes we needed.

The final result: a professional and well-produced brochure that was on time and cost effective. We look forward to working with Erica on our future projects!

I would like to say thank you for everything you have done. To begin with creating a beautiful logo for my salon. You gave me so many choices to select from. You also help provide the final logo to many vendors for my Grand Opening Party.

You take it as it come and very patient. I feel like we were in this together, you had my back and that is not heard of in today's world. Thank you Erica. I can't wait to see the website design.

You're the best of the best.
